LBC Houston's Baton Rouge terminal is located within the Geismar Industrial Complex ten miles south of Baton Rouge, Louisiana, on the Mississippi River (river miles 204). The terminal is one of the northern most independent deepwater terminals on the river, thus providing economical barge distances to the upper Mississippi and Ohio River valleys.

Liquid storage: 449 000 m³
(2 845 000 barrels)

40 tanks from 1 600 to 23 800 m³
(10 000 to 150 000 barrels)
